Is Alfen mobile energy storage sustainable?
Alfen's mobile energy storage products are sustainably produced,fully recyclable,and ensure zero emissions on-site. Mobile energy storage provides a reliable power solution that is easy to operate and robust enough to withstand harsh conditions. Perfect for temporary energy needs.
What is the maximum output power of the pc15kt mobile energy storage system?
The maximum output power is 22kW. The system intelligently balances between battery and generator power. During the power surges (e.g.,pump startup),the system can provide instant power support when generators need supplemental power. 9. What certifications are currently being planned for the PC15KT mobile energy storage system?
What is mobile energy storage?
Mobile energy storage provides a clean alternative to diesel generators for locations with no grid connection or only a weak one. Grid congestion creates increasingly long waiting times for companies who want to increase their grid connection. Mobile energy storage is the temporary solution to keep your business running.
Can a pc15kt mobile ESS work with a diesel generator?
Yes. The PC15KT mobile ESS supports up to 6 cabinets in parallel to reach 90kW /198kWh. It also supports battery-only parallel connection. 8. What is the maximum output power when working with a diesel generator?
