Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.

These systems consist of energy storage units housed in modular containers, typically the size of shipping containers, and are equipped with advanced battery technology, ...

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Interport's shipping containers can be fully customized with a wide variety of modification options, depending on your power generation source and battery storage needs.

The QIANEN 150KW Commercial Mobile Solar Generator offers a revolutionary solution for portable clean energy needs. Housed in a rugged container design, this powerful solar storage ...

The Mobil-Grid (R) is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and ...

Discover the transformative potential of solar panels on shipping containers. Explore custom kits, modular
