The ClearFox(R) Containerized System is a packaged wastewater treatment plant, custom designed and pre-installed within ISO shipping containers. ...

On-board chemistry tanks and battery stacks enable stress-free expansion and unmatched reliability. Three to five battery stacks per Z20 provide 48 ...

Each unit is housed in a durable container, requiring minimal site preparation. A single 20-foot container can process sewage for small communities, work camps, or disaster relief zones.

The energy storage battery system adopts 1500V non-walk-in container design, and the box integrates energy storage battery clusters, DC ...

These mobile systems are installed inside a seaworthy 20 or 40 ft containers or in combination to form complete systems with advanced water treatment and purification technologies.

Housed in a 20-foot container, this system integrates solar PV, energy storage, and advanced control components into a single unit, making it ...

On-board chemistry tanks and battery stacks enable stress-free expansion and unmatched reliability. Three to five battery stacks per Z20 provide 48 kW to 80 kW power with 160 kWh ...

Containerized wastewater treatment plant are engineered and constructed in Germany with maximum operating reliability our priority. KLARO ...
