I'm using Windows as a simple user (I don't have any admin rights) and want to install NodeJS LTS. On the download site I have the choice to download only the binary ...

I searched and found that versions 23.10.0 and 16.20.2 are present in the folders of the same name C:\Users\KS\AppData\Local\Nvm. By analogy, I created a folder v0.12.2 and ...

Since it's not mentioned anywhere in the grammar, the only way to encode a space is with percent-encoding (%20). In fact, the RFC even states that spaces are delimiters and should ...

Set the JAVA\_HOME Variable Windows 7 - Right click My Computer and select Properties > Advanced Windows 8 - Go to Control Panel > System > Advanced System Settings Windows ...

The value for C++20 is 202002L, as you can see at [cpp.predefined]p1.1: `__cplusplus` The integer literal 202002L. [ Note: It is intended that future versions of this ...

As the aforementioned RFC does not include any reference of encoding spaces as +, I guess using %20 is the way to go today. For example, "%20" is the percent-encoding for ...

@MetaByter I think it is more technically correct to phrase the question as "In a URL, should I encode the
