-----

Sonnen EcoLx20 delivers 20kWh of energy storage with advanced efficiency and reliability for sustainable energy solutions.

LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar ...

Ideal for emergency relief centers, field hospitals, and mobile disaster command stations. Its compact 8ft size and 20kWh capacity make it suitable for fast-response energy deployment in ...

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

The Bluesun 20-foot BESS Container is a powerful energy storage solution featuring battery status monitoring, event logging, dynamic balancing, and advanced protection systems. It also ...

Foldable Photovoltaic Power Generation Cabin is a containerised solar power solution. Combining the features of solar power generation and mobility, it provides electricity all over the world.

Housed in a 20-foot container, this system integrates solar PV, energy storage, and advanced control components into a single unit, making it ideal for remote industries, construction sites, ...

Modular design of structure and components, according to different configurations, flexible for a variety of industrial and commercial scenarios such as microgrid, light storage and charging ...

We offer a range of specialized prefabricated building types, each engineered to meet specific deployment and
