These mobile systems are installed inside a seaworthy 20 or 40 ft containers or in combination to form complete systems with advanced water treatment and purification technologies.

This article provides an overview of harnessing solar energy for wastewater treatment plants, highlighting its relevance and importance ...

This article provides an overview of harnessing solar energy for wastewater treatment plants, highlighting its relevance and importance in the context of renewable energy.

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best ...

Built in a 40ft High Cube foldable container, this all-in-one portable system is tailored for long-term off-grid operations requiring ultra-high capacity and energy security.

Medium voltage turnkey solution from Ingeteam for large-scale PV plants, supplied as a 40-foot container.

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

The system can be used to store electrical energy for commercial, industrial, or grid-scale applications. It is equipped with battery room, transformer, controller, HVAC, and other ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or ...
