Are bigbattery solar batteries safe?

BigBattery off-grid solar batteries, made in the US, are the safest and most secure option for any solar application. With built-in BMS and numerous safety features, you can rest easy and let our solar battery do the work for you. We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application!

What batteries do I need for my solar system?

We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application! BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.

Which battery bank is best for a home solar panel system?

Home solar panel systems need a way to store all the energy they produce, which requires effective, efficient and powerful solar battery banks. BigBattery off-grid lithium battery banks are made from LiFePO4 cells, which are the best energy source because they store more energy than any other lithium or lead-acid battery.

2 x 46950 battery cell in a box. Higher energy density compared to traditional formats. Improved fast charging performance. Applicable to electric vehicles, ebike, ...

Enjoy Free Shipping Worldwide! Limited Time Sale Easy Return.

With 300Ah capacity, 100A continuous discharge, and peak support up to 110A, it handles heavy-duty loads with ease. Its rugged, floor-standing design and integrated BMS with thermal ...

Discover lithium battery containers with IP65 protection, LiFePO4 cells, and 6000+ cycles. Ideal for solar & commercial energy storage.
