"We are completely satisfied with the container solution Rittal has provided, as it enables us to meet our high availability requirements for the data centre infrastructure."

After site selection and foundation laying, the container is transported for installation. Once electricity, network and water are connected, it's ready to use.

Gottogpower GT-CD Prefabricated Containerized Data Center Solution adopts integrated design (All-in-one), meeting the demand of outdoor small and medium-sized data center construction ...

This 20ft collapsible container solution features 60kW solar capacity and 215kWh battery storage. Built with robust 480W modules, it powers extended off-grid missions, from microgrids to rural ...
