As the world moves towards 5G, the demand for advanced communication technologies, particularly base station antennas, has skyrocketed.

In this project we will see how to configure and run a 5G end-to-end setup using SDRs and Openairinterface5G, an Open Source software. For this reason, we will need to configure: OAI ...

China Mobile Procurement and Bidding Network recently released a single-source procurement announcement for 2024-2025 5G wireless main equipment (2.6GHz/4.9GHz, 700MHz). The ...

Currently, Viettel High Tech's 5G radio base stations range from low to high power types and are ready for telecom carriers to deploy. At present, Viettel High Tech's base transceiver stations ...

In this project we will see how to configure and run a 5G end-to-end setup using SDRs and Openairinterface5G, an Open Source software. For this ...

The document discusses guidelines for developing 5G ecosystems in ASEAN countries. It covers policy and regulations around spectrum allocation, infrastructure, cybersecurity, and ...

In preparation for the Asian Winter Games, communication network services have been rigorously tested across 50 venues. Through mobile communication signal tests and thorough ...

The geographic disparities in 5G coverage and penetration--along with ASEAN's risk of falling behind--underscore the urgent need for the region to reassess its recent efforts ...

As millimeter-wave frequencies push base station density to unprecedented levels, the industry stands at a
