How many charging stations are there in Addis Ababa?

As Electric Vehicles are relatively new to the country, there is limited infrastructure prepared for them, including charging stations. Bareo Hassen, State Minister of Transport and Logistics, revealed that to accommodate the growing fleet of electric vehicles, 60 charging stations have been deployed across various locations in Addis Ababa.

Are EVs a good investment in Addis Ababa?

Tesfaye's sentiment encapsulates the prevailing attitude towards EVs in Addis Ababa. They are seen as great money-savers, but concerns linger regarding battery replacement. Tesfaye is among the 100,000 individuals driving EVs in Ethiopia, a number steadily increasing in Addis Ababa.

Are EV buses coming to Addis Ababa?

The first EV buses have already started to operate in Addis Ababa, and locally assembled EV minibuses are transporting passengers from one end of Addis to the other. The government has also allowed duty-free importation of EV parts to promote EV use.

Are EVs a good investment in Ethiopia?

They are seen as great money-savers, but concerns linger regarding battery replacement. Tesfaye is among the 100,000 individuals driving EVs in Ethiopia, a number steadily increasing in Addis Ababa. Moreover, the future for EVs appears promising as the Ethiopian government has imposed a ban on importing fuel-powered vehicles for private use.
