What is arc resistant switchgear?

Unlike conventional switchgear, arc-resistant switchgear is designed with reinforced compartments that can withstand incredible pressure increases during high-energy arc faults. Arc-resistant switchgear offers a safe, proven, and cost-effective solution to the problem of arc flash events. Why do I need Arc-Resistant Switchgear?

Who makes arc-resistant switchgear?

Crown Arc-Resistant Switchgear Crown Technical Systems is one of the few companies in the world that engineers and manufactures arc-resistant switchgear. Our original engineering team pioneered the widespread use of arc-resistant gear throughout Canada.

What is an arc flash?

An arc flash is an electrical explosion where energy leaves the circuit that it is contained in and travels through the air. The blast from an arc event combines voltage, heat--up to 35,000 degrees Fahrenheit--and violent concussion. Even with special PPE, those in the vicinity of an arc flash risk injury or even death.

What is arc quenching switchgear?

Arc Quenching Switchgear minimizes or eliminates damage to switchgear in the event of an arc fault, protecting valuable switchgear assets from arc flash damage. It is designed to reduce peak fault current by at least 25% and peak stress on upstream equipment by at least 44% when compared to a bolted fault device.

Al-Atheer company was founded in 1994. We are engaged in designing, manufacturing, testing, commissioning, and troubleshooting of a wide ...

Point Eight Power offers a full line of low- and medium-voltage arc-resistant switchgear to help combat the over 30,000 arc flash incidents that occur ...

Crown Technical Systems manufactures Medium-Voltage, Metal-Clad, Arc-Resistant Switchgear that meets ANSI/IEEE C37.20.7 standards for metal-clad switchgear.

Jawad Electric Switchgear Co. is one of the leading manufacturers in Jordan, founded in 2004 and within short period of time we become one of the ...

Jawad Electric Switchgear Co. is one of the leading manufacturers in Jordan, founded in 2004 and within short period of time we become one of the respected names in the local market.

We offer superior quality of low voltage switchgears, which we manufacture by using optimum grade material designed as per IEC standards. Our ...

Our expert technicians are on-hand to provide long-term support and streamline switchgear installation. With access to some of the industry"s most well-known electrical switchgear ...

We offer superior quality of low voltage switchgears, which we manufacture by using optimum grade material designed as per IEC standards. Our range is known for its high performance, ...

Eaton Arc Quenching Switchgear provides enhanced safety, advanced equipment protection and minimized downtime in the event of an arc flash. It reduces incident energy to below 1.2 ...

Investing in top-quality Arc Flash Clothing in Jordan is imperative for ensuring the safety of workers, and our extensive range is meticulously crafted with cutting-edge materials and ...

Our arc flash suits and kits are available with a variety of garment styles, hoods, and materials. Arc flash suits can be rated to 8 cal to 100 cal, for category/level 2 to level 4 protection.

BETA was established in Amman, in 2006. BETA has a qualified technical team to design, develop and provide a cost effective High- Tech. BETA has a fully equipped workshop ...
