What is the Bess scheme?

The £750m BESS scheme will strengthen the security and resilience of the energy system in the North West of England, and support the energy transition and the growth of renewable power generation in the region. Planning permission for the BESS was granted by Trafford Council, the local planning authority.

Which battery energy storage system is now operational in the UK?

Pulse Clean Energy, the battery energy storage system (BESS) maker backed by Canada-based Investment Management Corporation of Ontario, said its latest 42MW/100MWh battery energy storage system (BESS) located in the UK is now operational.

What is the Hyde Bess project?

The Hyde BESS project, based in west Manchester, is said to be capable of powering over 227,000 homes for two hours. It is the sixth project from Pulse that it has brought online since 2023 and is said will supply energy for local businesses and the community.

When will Trafford Bess be built?

Subject to a final investment decision, construction of the battery storage scheme is expected to begin in the first quarter of next year (2024) with it entering commercial operation in the final quarter of 2025. Carlton Power is in advanced talks with companies to finance, build and operate the Trafford BESS.
