The Project was introduced as a part of the Government of Thailand's 2017 initiative to procure a combined 300 MW of electricity generated from ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

As Bangkok races toward its 2030 renewable energy targets, the Bangkok Energy Storage Power Station Project emerges as a game-changer. This article explores how cutting-edge battery ...

Philippines-based renewable energy firm Berde Renewables Inc. has announced a joint venture with Thailand's Power Systems and Solutions Co. (PSS) to accelerate the ...

"This portfolio of projects significantly enhances solar energy and solar energy with battery storage in Thailand, marking a major step forward in the country's goal of achieving carbon ...

The Project was introduced as a part of the Government of Thailand's 2017 initiative to procure a combined 300 MW of electricity generated from hybrid renewable power plants.

Hybrid solar-storage systems are now being deployed not just for cost savings, but to secure operational resilience, meet carbon mandates, and satisfy buyer pressure throughout supply ...

ADB and Gulf Renewable Energy Company Limited, a subsidiary of Gulf Energy Development Public Company Limited, have signed an \$820 million loan to provide ...

Hybrid solar-storage systems are now being deployed not just for cost savings, but to secure operational resilience, meet carbon mandates, and ...

BNEF's report shows that the levelized cost of electricity generation (LCOE) for a new utility-scale solar power plant became cheaper than a new combined-cycle gas turbine ...

This is partly due to a lack of clarity on how battery storage fits into existing electricity infrastructure. In 2022, the Thai government approved 24 BESS projects, all of ...

Bangkok's streets buzzing with electric tuk-tuks charged by solar farms, while resorts in Phuket keep their aircons running smoothly using battery systems. This isn't science ...
