How much does a shipping container home cost?

Shipping container homes are easier on your wallet. A single 40-foot container costs around \$2,500 (used) or \$5,000 (new), offering a solid foundation for your home at a pleasant price. It doesn't take years to build a container home, just one or two months with the right planning and expertise.

How much does it cost to build a container home?

A single 40-foot container costs around \$2,500 (used) or \$5,000 (new), offering a solid foundation for your home at a pleasant price. It doesn't take years to build a container home, just one or two months with the right planning and expertise. The process is surprisingly manageable even for first-timers.

What are shipping container homes?

Shipping container homes have been gaining popularity as an alternative to traditional housing in recent years. These homes are made by retrofitting steel shipping containers, which are designed to be transported by cargo ships, into livable spaces.

What is a multi-container custom home?

By customer demand, what started as primarily single-unit container homes has quickly grown to multi-container custom homes. Using a combination of stacked or adjoined 20ft and 40ft containers, we will create your dream home with features like full-sized kitchens, multiple bedrooms, and spacious living areas.
