How much does electricity cost in Benin?

The average electricity price in Benin has increased from 195.12 USD/MWh in 2022 to 200.76 USD/MWh in 2023. Since 2017, the average electricity price in Benin has fluctuated between 167.99 USD/MWh (2017) and 219.42 USD/MWh (2021). Loading...

How much energy does Benin consume?

Benin consumes 1.1 TWh of energy annually, with electricity accounting for only two percent of its net energy consumption. Thirty-two percent of Benin's population has access to electric power, and the country is reliant on biomass and imported petroleum products for 97 percent of its energy demand.

How much energy is installed in Benin in 2023?

Loading... The top amount of capacity installed in Benin in 2023 was in Natural Gas at 53.72%, down from 85.81% in 2022. The technology with the biggest increase in capacity installed in 2023 was Utility-scale PV at 46.13%, up from 12.12% in 2022.

What policies does Benin implement?

Benin implements policies in 7/9 power policy categories tracked by Climatescope, including Renewable energy target, Renewable energy auction, Net metering, Import tax incentives, VAT incentives, Priority grid access, and Renewable Energy Certificates.

The modeled \$/kWh costs for 600-kW Li-ion energy storage systems vary from \$469/kWh (4-hour duration) to \$2,167/kWh (0.5-hour duration). The battery cost accounts for 41% of total system ...

According to BloombergNEF's recently published Energy Storage System Cost Survey 2024, the prices of turnkey energy storage systems fell 40% year-on-year from 2023 to a global average ...

These retail prices were collected in June 2025 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Benin with 150 other countries.

These retail prices were collected in June 2025 and include the cost of power, distribution and transmission,

and all taxes and fees. Compare ...

This infographic summarizes results from simulations that demonstrate the ability of Benin to match all-purpose energy demand with wind-water-solar (WWS) electricity and heat ...

Our analysts track relevant industries related to the Benin Energy Storage System Market, allowing our clients with actionable intelligence and reliable forecasts tailored to emerging ...

Here's the problem everyone's talking about: Benin currently imports 80% of its electricity from neighbors. While solar potential exceeds 5.5 kWh/m²/day, the national grid can't handle ...

Since 2019, the average electricity price in Benin has fluctuated between \$168.77/MWh in 2019 and \$219.42/MWh in 2021. The top amount of capacity installed in Benin in 2024 was in Solar ...

As of recent data, the average cost of a BESS is approximately \$400-\$600 per kWh. Here's a simple breakdown: This estimation shows that while the battery itself is a significant ...

That's exactly what Benin's 2025 commercial and industrial (C& I) energy storage initiative aims to achieve. With electricity demand growing at 7% annually - faster than its grid ...

These profiles have been produced to provide an overview of developments in renewable energy in different countries and areas. The IRENA statistics team would welcome comments and ...
