-----  
What is solarzentrum Berlin?

To start tapping more into the potential of solar energy, both in the private and the public sector, the SolarZentrum (solar centre) Berlin was opened in May 2019. It is a component of the "Masterplan Solarcity", which works as an independent advisory centre on the topic of solar energy (SolarZentrum Berlin, only in German).

How many solar thermal systems are there in Berlin?

As of March 29, 2023, there were about 8,250 solar thermal systems in the State of Berlin with an installed collector surface of more than 81,000 m<sup>2</sup>; (last update as of December 31, 2015 for 7,733 systems, IP SYSCON 2016). Averaged over the years, the collector surface amounted to around 10 m<sup>2</sup>; per system.

Are solar thermal systems becoming more popular in Berlin?

Overall, a declining trend has been observed since then. In Berlin, solar thermal systems are mainly used for hot water supply and to supplement space heating. In addition, some larger solar systems are used for heating drinking water and swimming pool water; they are further used for solar air systems and air conditioning systems.

Can solar power be taxed in Berlin?

The conditions for tax exemption apply if the system's capacity does not exceed 30 kWp. The zero VAT rate has been in effect since January 1, 2023. So far, solar power has accounted for less than one percent of the total generated power in Berlin (Berliner Morgenpost 2022).

This section shows exports and imports data at subnational level for Berlin. Click any date in the line plot, any subnational region in the treemap, or any product, destination or origin country to ...

Although China dominates the solar industry in all stages of the supply chain, production in other Asian countries has also gained in importance in recent years, and there are also production ...

These figures include buildings owned by the Berlin boroughs, Berliner Immobilienmanagement GmbH

(BIM), buildings of Berlin's public-law ...

These figures include buildings owned by the Berlin boroughs, Berliner Immobilienmanagement GmbH (BIM), buildings of Berlin's public-law institutions, municipal housing associations, and ...

Some of the last remaining manufacturers in Germany's solar industry are not ready to give up. They are demanding that the ...

In this section, you can find fact sheets that summarize the most important market indicators for the German photovoltaic, solar thermal and solar ...

In this section, you can find fact sheets that summarize the most important market indicators for the German photovoltaic, solar thermal and solar battery storage market.

Some of the last remaining manufacturers in Germany's solar industry are not ready to give up. They are demanding that the government in Berlin offer incentives to protect ...

This article explores the key components of the German and EU solar supply chain, showing how leveraging this local network can enhance logistical security, improve ...

The decline in production of solar collectors used in solar thermal systems was even greater. Between January and March 2024, their production fell by 67.1% to around ...

Since the war in Ukraine and the sudden drop in Russia fossil fuel exports to Germany, Berlin has introduced laws to accelerate solar ...

The German solar industry reached a milestone at the start of the year, as the total capacity of all installed solar power systems surpassed 100 gigawatts (GW), according ...
