Does Berlin Packaging offer un-certified packaging solutions for lithium batteries?

At Berlin Packaging we offer UN-Certified packaging solutions for lithium batteries, ensuring compliance with IATA, ADR, and IMDG regulations.

Who is Berlin Packaging?

Berlin Packaging is the world's largest Hybrid Packaging Supplier^{#174}; of glass, plastic, and metal containers and closures. The company supplies billions of items annually, along with package design, financing, consulting, warehousing and logistics services, and sustainability solutions for customers across all industries.

What is a microgreen containerized energy storage solution?

The core technology used in Microgreen containerized energy storage solutions are top quality Lithium Ferrous Phosphate (LFP) cells from CATL. CATL's 280Ah LiFePO₄ (LFP) cell is the safest and most stable chemistry among all types of lithium ion batteries, while achieving 6,000 charging cycles or more. CATL serves global automotive OEMs.

Are lithium batteries safe?

However, it's important to note that lithium batteries are generally safe when used properly, but they carry some risks, including the potential for thermal runaway. Thermal runaway is a phenomenon that can occur when a lithium battery experiences an uncontrolled increase in temperature, leading to a self-sustaining and uncontrollable reaction.

We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are ...

VDL Staalservice, Berlin Packaging Dangerous Goods and Lithium Safety Solutions are jointly developing BUNCKER(R); a safe and ...

Our expertise extends to the design and manufacturing of specialized lithium battery storage containers,

ensuring the safe handling and transportation of volatile materials.

Unsere Container sind für eine breite Palette von Anwendungen im Bereich der Energiespeicherung einsetzbar: Die Container von Braun eignen sich ...

These advanced power solutions combine German engineering precision with next-gen lithium-ion technology, offering unmatched performance in energy storage and management.

Though lithium batteries have increased in popularity due ...

Berlin Packaging Dangerous Goods can supply you with all kinds of packaging solutions for "metal" and "ion" lithium batteries. We have four standard sizes of UN-Certified boxes for lithium ...

We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are CATL brand, whose LFP chemistry packs 1 ...

Unsere Container sind für eine breite Palette von Anwendungen im Bereich der Energiespeicherung einsetzbar: Die Container von Braun eignen sich sowohl als ...

VDL Staalservice, Berlin Packaging Dangerous Goods and Lithium Safety Solutions are jointly developing BUNCKER(R); a safe and user-friendly packaging solution for ...

Though lithium batteries have increased in popularity due to their long lifespan, high energy density, and relative safety when used properly, the risk of thermal runaway ...

Berlin Packaging brings together the best of manufacturing, distribution, and income-adding service providers.
