What is a battery cabinet?

A battery cabinet houses and protects the batteries that supply stored energy to a UPS system. It ensures that backup power is readily available whenever primary power is interrupted. Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery.

Does Canberra have solar power?

Canberra ranks high for solar potential, averaging over 4.5 hours of peak sun daily. Without storage, most of that energy is exported at low feed-in tariffs--typically 7-12¢/kWh. Battery storage changes the game by allowing you to:

Are solar battery systems a trend for Canberra Homes?

Solar battery systems aren't just a trend--they're a move toward powerhouse autonomy for Canberra homes. Whether you choose Tesla, Sungrow, or one of the other reliable brands, your battery pays for itself faster when combined with a smart solar system and ACT rebates.

What types of battery cabinets are available?
