-----  
What are the different types of uninterruptible power supplies?

Our range of Uninterruptible Power Supplies comprises Three Phase Power UPS's such as the FORTE series to our UP3000-G4 UPS as well as our single phase UPS backup power solutions for small-medium-large enterprise and the Sinewise Inverter Series for the home / home-office.

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) is an electrical device that filters your incoming power and protects your equipment from spikes, dips, surges, high/low voltages and blackouts. Various backup options are available and the period of backup time depends on the client.
