What is a hybrid inverter?

Actual product may vary. Hybrid inverters are the cornerstone of modern energy systems, combining solar, battery, and grid power for unmatched flexibility and efficiency. These versatile inverters operate in hybrid mode, storing excess solar energy or drawing power from your home to charge your batteries.

How much does a hybrid inverter cost in South Africa?

What is the Average Price of Hybrid Inverters for Sale in South Africa? The price of hybrid inverters can vary significantly based on their capacity and brand. On average, you can expect to pay anywhere from R10,000 to R30,000 for units ranging from 5kW to 12kW.

Should you use a hybrid inverter?

Using a hybrid inverter comes with several advantages. Firstly, it allows for greater energy independence, as it can provide power even during outages by utilizing stored battery energy. Secondly, it maximizes the use of solar power by enabling users to store excess energy generated during peak sunlight hours.

What is a SunSynk solar hybrid inverter charger?

SunSynk Solar hybrid inverter charger are small-scale inverters which are ideal for both marine vessels and small houses with limited roof spaces. They carry a weatherproofing rating of IP65 and is fitted with 2 x MPPT ports

If you're off-grid or in an area with unreliable grid power, a 1.5 kVA 12V hybrid inverter allows you to operate independently. You can use solar panels to charge your batteries and use that ...

We stock a wide range of solar power inverters, including Hybrid Inverters, to complete your PV project. View our competitive prices online or contact Sustainable about your inverter ...

SunSynk Solar hybrid inverter charger are small-scale inverters which are ideal for both marine vessels and small houses with limited roof spaces. They carry a weatherproofing rating of IP65 ...
