Where can I find information about energy storage regulations in New York City?

Updates and resources can be found on the Working Group's webpage. You can download NYSERDA's New York City [PDF]factsheet to learn more about energy storage regulations in New York City. The Trainings for Local Governments page offers additional resources including recordings and materials from NYSERDA's battery energy storage system trainings.

What is the battery energy storage system guidebook?

A public benefit corporation, NYSERDA has been advancing energy solutions and working to protect the environment since 1975. The Battery Energy Storage System Guidebook contains information, tools, and step-by-step instructions to support local governments managing battery energy storage system development in their communities.

What is a battery energy storage system?

Battery energy storage systems (BESS) stabilize the electrical grid, ensuring a steady flow of power to homes and businesses regardless of fluctuations from varied energy sources or other disruptions. However, fires at some BESS installations have caused concern in communities considering BESS as a method to support their grids.

The project will be built south of Portage, Wisconsin, in the town of Pacific, on the site of the current Columbia Energy Center. Construction is expected to begin in 2026 and be completed ...

Identification and documentation of personnel who are qualified to service, maintain and decommission the energy storage system, and respond to incidents involving the energy ...

Fire alarm systems that serve ESS shall be provided with descriptive contact I.D. that identifies the coverage to be for an "Energy Storage System" to the central monitoring ...

Include remote sensors and monitoring (e.g., infrared, thermal, fire detection). Communicate with local first
