What is included in a container generator?

The container generators are fully operational supplied, including air-intake, exhaust system and silenced muffler, tank, control panel and accessories such as lighting and fire extinguishers. Apart from the preparations for the load connection no further construction work at site is necessary.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Why should you choose a containerised generator?

Fire Detection Panels and Intruder Alarms: Enhanced safety and security. Our containerised generators are suitable for a wide range of applications, including: Super Silent: Super silent 65dBA at 1m for prime power running diesel and gas. Critical Backup Power: For MOD, NHS, and HMP sites, ensuring reliable performance in emergencies.

What is a Generac mobile MLT4060VLED light tower?

The Generac Mobile MLT4060VLED Light Tower features a vertical mast with rapid 15 second deployment. Built and designed for the most extreme environments, the 6kW Light Tower is available with a Mitsubishi or Kubota engine option, four 320watt LED lights and offers complete flexibility with 359 degree mast/light rotation.

The lightweight mobile diesel light cart allows the staff to work independently. There is a 220/110V socket on the generator for engineering use, and it can provide sufficient brightness at night or ...

Our line of containerized generators is easily configurable to the needs of any application, from rental to disaster relief to mining -- with a whole host of value-added standard features, ...

We specialise in offering high-quality bespoke containerised generators from 110kW to 3.5MW for Diesel,

LPG, CHP, and NG Gas application

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...

Portable scene lights using Honda generators as a power source. Halogen, HID, and LED light heads are available. Single extension pole or two extension poles elevate to a height of 12.5 ft.

Most gensets are constructed as clip-on units that attach to the upper front of the reefer container for quick connection and ...

Our selection of light tower and generator systems cover everything from compact designed for smaller work sites to full size mobile tower generators capable of illuminating over 10 acres.

Portable scene lights using Honda generators as a power source. Halogen, HID, and LED light heads are available. Single extension pole or two ...

Built and designed for the most extreme environments, the 6kW Light Tower is available with a Mitsubishi or Kubota engine option, four 320watt LED lights and offers complete flexibility with ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades ...

Most gensets are constructed as clip-on units that attach to the upper front of the reefer container for quick connection and separation. Alternatively, underslung gensets ...

MITTRONIK Engineering is specialised in customized solutions. The container generators are fully operational supplied, including air-intake, exhaust system and silenced muffler, tank, ...
