Over ten years ago, our CEO and CTO, Tom Brennan, founded Sol-Ark(R) with a mission to make the most reliable, innovative, and affordable solar storage solutions to power families and ...

PORTLAND, Ore. -- (BUSINESS WIRE)-- GridStor, a developer and operator of utility-scale battery energy storage systems, announced today that Daniel Dedrick has been ...

Unlocking its secrets could thus enable advances in efficient energy production, electronics cooling, water desalination, medical diagnostics, and more. "Boiling is important for ...

Growing energy demand means the U.S. will almost certainly have to expand its electricity grid in coming years. What's the best way to do this? A new study by MIT ...

Featuring an all-in-one system design, it integrates the inverter, transformer, and control systems into a compact, streamlined unit, reducing installation time and minimizing operational costs.

Taiwan's Innovative Green Economy Roadmap (TIGER) is a two-year program with the MIT Energy Initiative, exploring ways that industry and government can promote and adopt ...

GridStor, a developer and operator of utility-scale battery energy storage systems, announced that Daniel Dedrick has been appointed as the company's chief technology officer ...

MIT engineers developed a membrane that filters the components of crude oil by their molecular size, an advance that could dramatically reduce the amount of energy needed ...

Sol-Ark(R) provides best-in-class solar energy storage systems and solutions for homes, commercial businesses, and industrial applications. Learn more.

With nearly two decades of experience at the intersection of renewable energy, software, and controls integration, Kody Calkins has built a career helping the energy transition move forward,...

As MIT's first vice president for energy and climate, Evelyn Wang is working to broaden MIT's research portfolio, scale up existing innovations, seek new breakthroughs, and ...

Learn about Tom Brennan, CEO, CTO, and co-founder of Sol-Ark(R), a pioneer in hybrid inverter technology driving innovation in energy storage worldwide.
