---

Battery storage projects surge as utilities prepare for next grid era in 2026 -- Battery storage projects nationwide are accelerating ahead of 2026, with utilities deploying systems to ...

The project will be developed under the build-own-operate model and is supported by Viability Gap Funding through the Power System Development Fund. As part of this ...

Understanding the nuances of EPC projects, alongside other significant project categories like system integration, Energy Management Contracts (EMCs), and leasing ...

The Department of Energy (DOE) Loan Programs Office (LPO) is working to support deployment of energy storage solutions in the United States to facilitate the transition to a clean energy ...

Enter energy storage power station sub-projects, the unsung heroes that keep the lights on when Mother Nature hits snooze. From China's mountainous regions to Chile's ...

Sheep graze among the panels at the Sherco Solar power plant in Minnesota, which is slated for a major solar plus storage expansion.

Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in 2024.

The Department of Energy (DOE) Loan Programs Office (LPO) is working to support deployment of energy storage solutions in the United States to ...

Combined with rapid decreases in the costs of battery technology and improving incentives for storage projects (notably the IRA), increasing needs for system flexibility ...

Power Grid Corporation of India has won a 2,000 MWh battery energy storage project in Andhra Pradesh under tariff-based competitive bidding. The BOO project, backed by viability gap ...

The proposed Project would involve the construction of a 100-megawatt (MW) battery energy storage facility adjacent to the existing Arizona Public Service (APS) Westwing ...
