There was a massive boost for this effort this week when Sunly, an Estonian renewable energy producer raised 300 million euros in debt financing to accelerate the ...

There was a massive boost for this effort this week when Sunly, an Estonian renewable energy producer raised 300 million euros in debt financing to accelerate the construction of 1.3 GW of ...

The Climate Ministry has announced plans to get to 5,600 megawatts (MW) of renewable energy capacity in Estonia by 2035, focusing on expanding wind, solar, and energy ...

Construction has begun in Estonia on two energy storage facilities with a total capacity of 200 MW and 400 MWh. On Thursday, a symbolic groundbreaking ceremony took ...

There was a massive boost for this effort this week when Sunly, an Estonian renewable energy producer raised 300 million euros in ...

Summary: Estonia is rapidly emerging as a Nordic leader in renewable energy storage. This article explores the strategic locations of its wind and solar storage bases, key projects driving ...

The EUR100M project, led by Baltic Storage Platform, will deliver some of Europe's largest battery storage complexes with a combined capacity of 200 MW and a total storage capacity of 400 ...

Estonia is launching a major 300 MW solar-plus-storage project in Ida-Viru County, transforming a former quarry to boost renewable energy and energy independence.

One of Risti's differentiating elements will be the combination of solar energy with battery storage and wind
