-----

The system integrates a 50kW hybrid inverter, a 104kWh battery cabinet, and RENAC's built-in Smart EMS (Energy Management System)--all in a compact, modular design ideal for space ...

The Greek Ministry of Environment and Energy has unveiled an innovative program aimed at bolstering energy storage for businesses.

Nikos Mantzaris placed special emphasis on self-production -- small-scale RES systems designed to meet the needs of energy communities, households, farmers, ...

Solar and wind farms might generate clean energy, but what happens when the sun isn't shining or the wind stops? That's where the 680MW Agios Georgios-Pyrgos pumped storage project ...

Summary: Greece is rapidly advancing its energy storage infrastructure to support renewable energy adoption. This article explores how cutting-edge battery storage systems are reshaping ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

During sunny days, PV contributes over 60%-70% of energy during midday. Considering that there is no storage available yet in Greece, it is only reasonable that we have ...

With 24 years' experience in grid-scale storage solutions, we've deployed 850+ projects across 15 countries. Our patented thermal management systems ensure optimal battery performance in ...
