On April 25, 2024, the GSL ENERGY 40kwh wall-mounted battery home energy storage system was successfully implemented in ...

On April 25, 2024, the GSL ENERGY 40kwh wall-mounted battery home energy storage system was successfully implemented in Puerto Rico, bringing a new energy ...

The yearlong pilot could be the first step in creating a residential-storage virtual power plant larger than any in North America.

As more homes became "mini power plants", generating electricity from rooftop solar and storing it in batteries, the island's grid ...

Discover how battery storage solutions are revolutionizing Puerto Rico's power grid, improving reliability during outages and supporting renewable energy integration.

Home battery storage systems are keeping lights on during summer energy crunches in Puerto Rico and elsewhere across the United States.

It's going to be a very difficult summer, which is why Sunrun has ramped up our dispatch capabilities, using tens of thousands of home batteries to support the grid and people ...

It's going to be a very difficult summer, which is why Sunrun has ramped up our dispatch capabilities, using tens of thousands of home ...

Project Overview: On August 22, 2024, GSL Energy installed a 40kWh home Powerwall lithium iron
