Where can I get free shipping on solar inverters?

Get free shipping on qualified Solar Inverters products or Buy Online Pick Up in Store today in the Electrical Department.

What is a solar inverter?

Inverters convert direct current (DC) electricity produced by solar panels into a sinusoidal alternating current (AC) of 220V, which is suitable for most electrical appliances. The assortment of inverters for solar systems on the market today is huge.

How much power does a solar inverter use?

The power of such an inverter can reach up to 8000 Watts. To determine the size of the required inverter, you need to calculate the total load of all devices in the power supply grid. To do this, measure the power of each device for 1 hour and summarize the obtained result. Hybrid inverters are most effective for solar systems.

What types of solar inverters are available?

Models include Solaron250 kW Solaron 333 kW Residential, Industrial and Commercial Inverters with built-in disconnects from Solectria include PVI3000 PVI4000 PVI5000 PVI5300 Residential models and PVI13KW PVI15KW commercial and industrial models.
