Should you install solar panels in Tokyo?

Installing solar panels not only reduces monthly electricity bills but also ensures power availability during outages. Check the conditions and see how much subsidy you can receive. Tokyo will require solar panel installation on new homes starting April 2025.

What subsidies does Tokyo offer for solar panels?

Tokyo offers subsidies for solar panel installation, providing up to $\text{¥}120,000$ per kilowatt (maximum $\text{¥}360,000$). For panels exceeding 3.6 kilowatts, the subsidy is $\text{¥}100,000$ per kilowatt. Additionally, Tokyo supports the "Tokyo Zero Emission Housing" initiative, promoting energy-efficient homes with improved insulation.

Can solar power save money in Tokyo?

In the long run, yes. The Tokyo Metropolitan Environment Bureau estimates that installing solar power can contribute to saving about 7,700 yen monthly on your electricity bill in Tokyo. The amount of electricity a solar system can generate directly affects how much energy and money a household can save.
