The Juba Solar Power Station is a proposed 20 MW (27,000 hp) solar power plant in South Sudan. The solar farm is under development by a consortium comprising Elsewedy Electric ...

The entire power plant will be remotely monitored through Huawei Fusion Solar, which is installed on site to communicate with all the inverters, STSs, and weather monitoring ...

Aptech Africa is delighted to announce the successful installation of 26 MW of solar panels in Juba, South Sudan. This project was entirely self-funded by Ezra Construction Company.

This project, managed by Aptech Africa's experienced team, integrates with 30 MW of diesel generators, featuring Ulica Solar Panels and 108 Huawei inverters for maximum efficiency.

Aptech Africa is pleased to report that it has brought to completion the installation of 26MWp of solar panels in Juba, South Sudan in a project self-financed by Ezra Construction ...

Aptech Africa successfully installs a solar power plant in Juba, South Sudan (C) 2024 African Energy Council.

Aptech Africa is pleased to report that it has brought to completion the installation of 26MWp of solar panels in Juba, South Sudan in a project self-financed by Ezra Construction Company.

Aptech Africa was selected to render engineering procurement construction services for the solar PV power project. Huawei Technologies supplied 108 inverters to the project site.

To access additional data, including an interactive map of global solar farms, a downloadable dataset, and summary data, please visit the Global Solar Power Tracker on the ...
