Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial Development Organisation (UNIDO) to ...

This groundbreaking project will replace polluting diesel generators with a large-scale battery storage system powered by solar energy.

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

"This transformative project will revolutionize industrial energy use by replacing polluting diesel generators with a large-scale, solar-powered battery storage system," said Gham Power.

SunContainer Innovations - Imagine a city where streetlights dim during peak hours while hospitals rely on diesel generators. This isn't fiction - Kathmandu's power demand grew 18% ...

The Kathmandu Battery Energy Storage System project, led by Gham Power, aims to install one of Nepal's largest energy storage systems, with a capacity of 4 MWh.

China's CRRC recently delivered 50 mobile lithium-ion containers to Kathmandu Valley - sort of "power ambulances" that can stabilize grid voltage within milliseconds.

In order to meet the client's requirements and ensure fast and efficient installation, GSOL supplied a pre-assembled containerized solar system from our workshop in Denmark and when the ...

An energy storage system with higher energy density is needed in the 5G era. Intelligent lithium batteries that
