SFQ Energy Storage is committed to providing customers with energy storage solutions for households, industries and commerce, and microgrids.

In the quest to tackle energy challenges in the Democratic Republic of Congo (DRC), JNTech is spearheading the adoption of hybrid ...

A microgrid is a small, self-contained power system that integrates different energy sources, like solar panels, wind turbines, fuel cells, gas turbines, and batteries, to produce and ...

JNTech is pleased to announce the recent successful completion of a remote area microgrid project in the Democratic Republic ...

In the quest to tackle energy challenges in the Democratic Republic of Congo (DRC), JNTech is spearheading the adoption of hybrid solar-diesel microgrid systems.

Global equipment manufacturer Caterpillar has supplied hybrid energy solutions technology including 7.5MW of battery storage to the microgrid powering a gold mine in the ...

This paper analyzes the concept of a decentralized power system based on wind energy and a pumped hydro storage system in a tall building. The system reacts to the current paradigm of ...

Located in a mining area in southeastern DRC, CEECATL developed a high-safety, long-life, and intelligent grid-forming energy storage system tailored to the project's power ...

Microgrid solar container energy storage system manufacturer in the Democratic Republic of Congo
