It provides detailed insights into Mozambique's solar and wind energy potential, the evolution of energy projects, and the technical ...

The project's impact goes beyond energy generation: It has created over 1,200 jobs during construction, implemented a Livelihood Restoration Plan for 223 displaced families, offering ...

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and ...

The project involves the design, financing, construction and operation of a 40 MWp solar photovoltaic power plant in the Dondo ...

For millions in rural Mozambican communities, off-grid solutions like mini-grids and standalone solar systems represent the most viable path to affordable and reliable electricity. ...

Key Figures & Findings: MozParks, a leading developer and operator of industrial parks, in partnership with Logos Industries, has fully transitioned its head office to solar power ...

Central Solar de Mocuba has increased Mozambique's energy generation capacity by 40 MW and will produce approximately 79 GWh per year. The project's strategic location ...

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility ...

21) Capital costs include the cost of the power generation system (solar PV modules and inverters), the battery
