---

Overview Pilkington Solar-E(TM) is a range of good solar control performance on-line coated glasses offering low solar heat coefficient gain, low ...

Measuring 101.6 cm by 152.4 cm (3.3 feet x 4.9 feet), the laminated power-generating window was developed using the company's pilot production line. The new product ...

A California-based startup, Next Energy Technologies, has revealed a groundbreaking product: the world's largest fully transparent organic photovoltaic (OPV) window.

This pilot production marks a significant step toward enabling the glass industry to produce full-scale vision area glass for clean, solar ...

Solar glass represents a significant advancement in the quest for sustainable energy solutions. This innovative material serves a dual purpose: it functions as a regular ...

Next Energy said its laminated transparent power-generating windows were produced with its pilot production line. California-based ...

Single building installation can avoid 2.2 million miles of CO2 vehicle pollution; 12-times more than solar. When modeled for buildings, engineered to outperform rooftop solar by 50-fold: Apply to ...

Let the light in with Mitrex Solar Glass -- a powerhouse in disguise, where photovoltaics meet limitless design, where color meets clarity. You're not ...

Glass, wood, concrete, and steel are the longtime cornerstones of building, but to keep up with 21st-century needs, NEXT ...

This pilot production marks a significant step toward enabling the glass industry to produce full-scale vision area glass for clean, solar energy-producing facades.

Let the light in with Mitrex Solar Glass -- a powerhouse in disguise, where photovoltaics meet limitless design, where color meets clarity. You're not just choosing glass; you're choosing a ...

Overview Pilkington Solar-E(TM) is a range of good solar control performance on-line coated glasses offering low solar heat coefficient gain, low reflectivity, reduced glare and low ...
