---

It consolidates key drivers and barriers impacting new solar PV capacity additions until 2034, providing a comprehensive analysis of power sector dynamics, energy policies, ...

In its latest report on the South American solar PV market, Wood Mackenzie has revealed that the region will add 160 GW of photovoltaic (DC) capacity between 2025 and ...

South America is expected to install 160 GWdc of solar photovoltaic capacity from 2025 to 2034, driven by growth in emerging markets. This expansion is highlighted in a report ...

The South America Solar Photovoltaic Market has witnessed remarkable growth over the past decade, driven by increasing environmental concerns, supportive government policies, ...

Wood Mackenzie's latest report on the South American solar PV market reveals that the region will add 160 GW dc of solar capacity between 2025 and 2034, driven by ...

The South America Solar Photovoltaic Market is growing at a CAGR of greater than 11% over the next 5 years. Enel Green Power S.p.A., Trina Solar Limited, Atlas Renewable ...

Analyst Wood Mackenzie has forecast the addition of 160GW of new solar PV capacity by 2034 in South America in a recent report.

In this context, South American countries are developing sustainable actions/strategies linked to implementing solar photovoltaic (PV) and concentrated solar power ...

The South America Solar PV Market Outlook 2025 report provides an in-depth analysis of the region's solar energy landscape, including power sector dynamics, solar ...

In its latest report on the South American solar PV market, Wood Mackenzie has revealed that the region will add 160 GW of ...

Today we look at the grids of Chile, Brazil, and Colombia, all of which have already made solar a cornerstone of their generation or are working to do so in the near future.
