At the core of PowerPlus Escape 30, the energy storage solution from Pixii, is the PixiiBox. An advanced bi-directional power conversion unit.

To learn more about the options available in your region, we recommend contacting your local authorities or reaching out to a Pixii sales ...

It connects to a range of energy sources, like solar panels, the grid, generators, and more. It is software configurable and can be set to ...

Pixii Power Shaper XL Flexible grid tied energy storage system oriented application. It is fully integrated with and ready to be connected to the grid for applications as solar self ...

Flexible grid tied energy storage 50kW up to 50kWh* / 40kW The PowerShaper from Pixii is a storage system** designed for outdoor fully integrated with PixiiBox inverters

It connects to a range of energy sources, like solar panels, the grid, generators, and more. It is software configurable and can be set to perform various functions, ensuring optimal ...

To learn more about the options available in your region, we recommend contacting your local authorities or reaching out to a Pixii sales representative for guidance.

SOLSOL in partnership with PIXII brings the PowerShaper solution - a unique modularity of inverters and batteries that changes the way energy is used. With intelligent energy storage, ...

AC coupled solar With integrated MPPT functionality the PixiiHome is a complete DC cou. Our technology can also operate with most grid tied PV inverters, in ...

At the core of PowerPlus Escape 30, the energy storage solution from Pixii, is the Pixiibox. An advanced bi-directional power conversion unit. Bi-directionality means that the energy flow can ...

Harness the full potential of renewables with our smart energy storage solution. Our modular approach allows you to scale to your needs, speeding up the transition to green energy.

Discover Pixii - the smart energy storage system. Optimize the use of photovoltaics and reduce costs with innovative technology from SOLSOL.
