What is a seafold 40' container?

A collapsed bundle of five SeaFold 40' containers accommodates the same slot as one conventional 40' High Cube container creating 80% more storage and operating cost efficiencies at terminals, railheads, and ports, along with reducing lifts and container movement on ships, truck, rail, and barges.

Do Empty shipping containers clog roads and ports?

Empty shipping containers clog roads and ports. Staxxon's foldable containers -- which can be stacked in bundles -- are one solution to this.

What size containers are used for intercontinental shipments?

The most commonly used containers for intercontinental shipments are 20' and 40' containers, also called ISO-containers. Due to standardised dimensions, they can be transported on vessels, in trucks or on rails in an effective way. Loading, shipping and unloading is simplified.

What is compact containers?

Compact Containers serves the global shipping and intermodal industry with an efficient, low-cost means to transport containers by Road, Rail, or Sea. Discover the future of cargo logistics with Compact Containers. Our SeaFold 40' collapsible containers redefine efficiency & cost savings.

The collapsible heavy-duty OceanPak(R) is specifically ...

A case study based on the Asia-Europe-Oceania network of a global liner shipping company demonstrates the applicability of the proposed model and interesting managerial ...
