In the sub-project Mukran of the BMBF-funded flagship project TransHyDE, spherical and nearly spherical-shaped (isotensoids with short cylindrical spacer) high-pressure ...

With the COSMOS high-pressure system from heiserTEC, we offer a modular solution that is used worldwide in energy projects, research facilities, and industrial applications.

The MW-class containerized energy storage system can be integrated into the power grid for charging, and can also be configured with new energy sources for storage and ...

In the sub-project Mukran of the BMBF-funded flagship project TransHyDE, spherical and nearly spherical-shaped (isotensoids with ...

By using advanced solar panels and innovative battery storage solutions, these containers provide a reliable energy source that reduces reliance on conventional power grids, ...

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now ...

Our goal is to develop high-pressure-resistant tanks that offer an innovative solution that not only meets current standards but also fulfills future requirements.

Feature highlights: This 220V Portable Mobile Digital Power Supply is designed for outdoor emergency energy storage, featuring a lithium battery with a capacity range of 252WH-756WH ...

Our composite ground storage vessels deliver compact, efficient, and high-capacity gas storage. Ideal for

hydrogen stations, CNG facilities, and renewable energy sites.

Imagine a bakery that only makes bread when the sun shines - that's solar energy without storage. This power station acts like a giant battery, storing sunshine for cloudy days and ...

Hydrogen needs to be stored under high pressure to achieve practical energy density for various applications. In this article, we will explore the different types of tanks used to store hydrogen ...
