Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and microgrid compatibility.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Battery storage for solar power is essential for the future of renewable energy efforts. As the market continues to grow, we expect the adoption of modified shipping ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

FutureVolt's Container BESS Solution works seamlessly with solar and wind resources to maximize clean energy utilization and smooth out fluctuations in supply and ...

This all-in-one containerized system combines an LFP (LiFePO4) battery, bi-directional PCS, isolation transformer, fire suppression, air conditioning, and an intelligent Battery Management ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best ...

Our C& I Battery Energy Storage System (BESS) is a high-capacity industrial battery storage solution, grid-connected to optimize energy usage and reduce costs.
