Are solar powered string lights a good idea?

We do our best to process orders as quickly as we can, but unfortunately cannot control the time the carrier takes once the order is released to them. Solar powered LED string lights are a way to reduce your carbon footprint. Shop the decorative solar lights at Brightech to responsibly illuminate your space.

How many lights are in a 20 foot string light set?

Each 20-foot string light set includes 10 light sockets set 2 feet apart and 10 decorative clear LED bulbs. If one bulb goes out, the rest will remain lit. They're simple to install, and easily connect multiple sets end-to-end safely. Decorate and illuminate your next festive celebration.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

How long is the USB-C charging cable for Blaze 20 solar string lights?

Read reviews for Blaze 20 LED Outdoor Solar String Lights The USB-C charging cable is only 12 inches long for the outdoor solar lights. Do you have a longer cable available! Helpful? - Make sure that the green light is ON, so the batteries are fully charged, and that all the wires are properly connected.

Featuring a 8" lead length (distance from solar panel to the first LED) and a 2.5" tail loop (for tying and hanging) these year round decoration lights are perfect for any patio, deck, pathway, tree ...
