What is a solar container?

Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work. Because of their construction, our containers offer unmatched flexibility and mobility.

What are mobile solar containers?

Available in both 20ft and 40ft variants, these innovative containers are designed to revolutionize the way we harness and utilize solar power. Efficient Solar Power Generation: Our Mobile Solar Containers are equipped with high-efficiency solar panels that capture and convert sunlight into clean, renewable energy.

What is a 20ft & 40ft solar container?

Whether you choose the 20ft or 40ft version, the interior can be configured to house the required number of solar panels, batteries, inverters, and other components, providing flexibility to meet varying energy demands. On-Board Energy Storage: To ensure uninterrupted power availability, these containers come with advanced energy storage solutions.

What is shipping container solar lighting?

Shipping container solar lighting will be your best solution. No cords to worry about and no worry about losing power. The shipping container solar lighting system is very simple and maintenance free. The 12V battery provide power to the LED lights and the solar panel provide power to the battery through the charging controller.
