This document specifies a test method of light transmittance for the laminated solar photovoltaic glass for use in building. This document is applicable to flat modules with light transmittance in ...

INTERNATIONAL STANDARD ISO 23237 First2023-11 Glass in building -- Laminated solar photovoltaic glass for use in buildings -- Light transmittance measurement ...

This document specifies requirements of appearance, durability and safety, test methods and designation for laminated solar photovoltaic (PV) glass for use in buildings.

Improve understanding about glass end-of-life and quality of LCA part D data, quantify glass recovery rates and track end-use outcomes for recycled glass on 1-3 deconstruction projects.

iv INTERNATIONAL STANDARD ISO 23237:2023(E) Glass in building -- Laminated solar photovoltaic glass for use in buildings -- Light transmittance measurement method

Explore Onyx Solar's certifications, showcasing commitment to quality, sustainability, and industry-leading photovoltaic glass standards worldwide

In the ever-evolving world of building materials, the integration of advanced technologies is crucial for sustainable development. The PD ISO/TS 21486:2022 standard is a pivotal document that ...

This document was prepared by Technical Committee ISO/TC 160, Glass in building. Any feedback or questions on this document should be directed to the user's national standards body.
