---

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage ...

Sweden- based Niam Infrastructure and Evecon have joined forces to develop up to 110 MW of renewable energy projects in Latvia, including 84 MW of solar power and 26 MW ...

Energy storage systems are an essential element of Latvia's path towards a sustainable and energy-independent future. The ...

Using Monte Carlo simulations and stochastic modeling, the research incorporates key economic parameters such as CAPEX, OPEX, and discount rates to assess future LCOE ...

Danish renewables company European Energy has secured EUR37.9 million in financing for a major hybrid solar and energy storage project in Latvia, a landmark move for ...

Energy storage systems are an essential element of Latvia's path towards a sustainable and energy-independent future. The importance of these technologies is being ...

Niam Infrastructure and Evecon have formed a partnership for the construction of up to 84 MWp of solar power and 26 MW of energy storage across 11 project sites in Latvia.

SUNOTEC acquires 400 MWp solar-plus-600 MWh storage project in Latvia, targeting grid connection by 2027 and bolstering the country's expanding clean-energy ambitions.

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on ...

Niam Infrastructure and Evecon have formed a partnership for the construction of up to 84 MWp of solar power and 26 MW of energy ...

European Energy has secured EUR 37.9 million of long-term project financing for a hybrid solar and battery storage project in Saldus, Latvia. Once operational, it will be among ...

Recently, the 60MW electrochemical energy storage project of the 1-2 and 6-7 generation units at Guangdong Taishan Power Plant under CHN Energy, the largest electrochemical energy ...
