With in depth expertise in solar, wind, energy storage, and carbon management, along with years of hands-on industry experience, I provide end to end management from strategic design to on...

The proposed project will combine wind, solar, battery energy storage and green hydrogen to help local industry decarbonise. It includes an option to expand the connection to 1,200MW.

Energy Storage Is Powering New York's Clean Energy TransitionEnergy Storage SafetyAn Expanded Goal of 6 Gigawatts by 2030In 2019, New York passed the nation-leading Climate Leadership and Community Protection Act (Climate Act), which codified some of the most aggressive energy and climate goals in the country, including 1,500 MW of energy storage by 2025 and 3,000 MW by 2030. In June 2024, New York's Public Service Commission expanded the goal to 6,000 MW by 2030. St...See more on nyscrda.ny.govWillkie Farr & Gallagher LLP

With the rapid integration of renewable energy sources, such as wind and solar, multiple types of energy storage technologies have been widely used to improve renewable energy generation ...

Sophia represents clients in various types of financing transactions, including tax equity investments, debt financings, term loans, syndicated bridge and revolving loan facilities for ...

Summary: Discover how the integration of wind, solar, and storage systems is revolutionizing renewable energy adoption. Learn about the latest trends, real-world case studies, and ...

The global hydrogen energy storage market is projected to grow at 6.5% CAGR through 2030, driven by renewable energy expansion. Sophia's hydrogen storage solutions bridge the gap ...

Yes, energy storage systems can be integrated with both solar and wind farms effectively. This integration

addresses the intermittent and variable nature of solar and wind ...

She regularly advises project sponsors, tax equity investors and lenders on energy tax credits, project developments and financings, and M& A ...

Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more.

She regularly advises project sponsors, tax equity investors and lenders on energy tax credits, project developments and financings, and M& A transactions for wind, solar and energy ...
