What is 'project Sucre'?

Few details are available at this time, but Axiom reports plans for the campus have been filed through an affiliate known as Laidley, LLC, and is known as "Project Sucre." Citing a public notice, Axiom suggests Meta is targeting more than 2,250 acres of agricultural land off Highway 183 and Thomas Road.

Is Sucre a big data center?

And Sucre is not even the biggest. OpenAI is partnering with Oracle, Softbank, Microsoft and others on the Stargate project, which they say will be a \$500 billion, multi-site datacenter expansion, beginning with Abilene, Texas.

How much electricity does Sucre use?

To power racks lined with thousands of Nvidia H100 GPUs, Sucre will require 2.23 gigawatts of 24/7 electricity (enough to power more than 2 million homes), which utility company Entergy will provide via twin high-efficiency natural gas turbines at a capital cost of \$3.2 billion.

Few details are available at this time, but Axiom reports plans for the campus have been filed through an affiliate known as Laidley, LLC, and is known as "Project Sucre."

This grandest of Meta's 20 worldwide data centers will be called Sucre (i.e. sweet) and cover 4 million square feet of floor space on 2,250 acres.

We publish news, magazine features, and podcasts about the hyperscale & cloud, colocation & wholesale, artificial intelligence (AI), semiconductors, Edge computing, ...

Summary: Discover how Sucre's photovoltaic panel support systems enhance solar energy efficiency across commercial and industrial applications. This article explores innovative ...

This report is your guide to identifying lucrative opportunities within the Mainstream Renewable - Andromeda Solar PV Plant 100 MW - Sucre project, showcasing ...

The company has procured 12 GW of clean energy, enough to power a major U.S. city, including 100 MW of solar in Louisiana. Meta has 26 data centers either in operation or ...

Meta plans \$5bn data center campus in Louisiana Project Sucre linked to Entergy's proposed gas plants

National news reported that the scheme is called "Project ...

National news reported that the scheme is called "Project Sucre" and is planned for a 2,250-acre (911-hectare) site on agricultural property in Richland Parish, Louisiana, US. ...

Few details are available at this time, but Axiom reports plans for the campus have been filed through an affiliate known as Laidley, ...

In 2022, a 50MW solar farm in Sucre faced delays after its primary PV supplier halted operations. The project switched to imported panels, increasing costs by \$840,000.

The company has procured 12 GW of clean energy, enough to power a major U.S. city, including 100 MW of solar in Louisiana.
