major battery factory in northern Spain, the partners ...

Stellantis and CATL today announced they have reached an agreement to invest up to EUR4.1 billion to form a joint venture that will build a large-scale European lithium iron ...

The CATL Stellantis Spain battery factory is expected to create around 3,000 jobs, boosting the local economy and furthering Zaragoza's role as a hub for EV innovation.

CATL flooded the domestic market with inexpensive, efficient batteries. It wants to do the same overseas, but European politicians--and Donald Trump--stand in its way.
