Why should Timor-Leste invest in solar & storage infrastructure?

José added: "The investment in Timor-Leste's solar and storage infrastructure is transformative. It will help reduce dependence on fossil fuels while improving grid stability and energy access across the country". José de Ponte was supported by special counsel Marnie Calli, senior associate Lisa Huynh and solicitor Jeraldine Mow.

Did DLA Piper advise Eletricidade de Timor-Leste on power purchase agreement?

DLA Piper advised Eletricidade de Timor-Leste on power purchase agreement for first solar and battery storage project

How has Timor-Leste benefited from a power purchase agreement (PPA)?

This landmark project included drafting and negotiating a power purchase agreement (PPA) and an implementation agreement with the Ministry of Finance, marking a significant step in Timor-Leste's transition to renewable energy and the modernisation of its electricity infrastructure. José de Ponte, Partner in DLA Piper's Finance practice, commented:

Does Timor-Leste rely on diesel fuel?

Project's partner in DLA Piper's Finance practice José de Ponte commented: "Timor-Leste has long relied on diesel fuel to power its grid, placing a significant financial burden on the state and end users.

This project combines high-capacity lithium battery storage, advanced hybrid inverters, and next-generation PERC solar panels to provide clean, reliable, and cost-effective power in a region ...

What is the Timor-Leste solar power project? The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power ...

DLA Piper advised Eletricidade de Timor-Leste on a PPA to develop Timor-Leste's first solar PV power plant and battery energy ...

A battery pack factory in Timor-Leste could address critical gaps in the nation's electrification roadmap. Let's explore how localized battery production can power homes, businesses, and ...

DLA Piper advised Eletricidade de Timor-Leste on a PPA to develop Timor-Leste's first solar PV power plant and battery energy storage system.

Discover how lithium battery energy storage systems are transforming Timor-Leste's renewable energy landscape, reducing reliance on fossil fuels, and creating reliable power solutions for ...

Since 2022, Bairen Energy Storage has deployed 47 battery energy storage systems (BESS) across West Africa. Their Ouagadougou flagship project--a 20MW/80MWh lithium-ion ...

This project represents Timor-Leste's first step toward a renewable energy future, modernising the electricity sector while ...

Modern energy storage batteries in Timor-Leste leverage lithium-ion advancements with adaptive Battery Management Systems (BMS). Take the 2023 Solar+Storage project in Dili as an ...

This project represents Timor-Leste's first step toward a renewable energy future, modernising the electricity sector while improving reliability and reducing costs nationwide.

The renewables unit of China National Nuclear Power (CNNP) is considering a move into the solar market of the Southeast Asian market of Timor-Leste, two sources told Infralogic.
