-----

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, ...

Each unit remains under 36 tonnes and functions as two 4.5MWh containers stacked together. This approach meets transport regulations in 99 percent of global markets ...

The TENER Stack marks a breakthrough in system capacity, deployment flexibility, safety, and transportation efficiency, signaling a new era for large-scale energy ...

Discover CATL's groundbreaking TENER Stack--a 9 MWh ultra-large energy storage system set to redefine energy solutions and capacity efficiency globally.

Today, the company unveiled a 20-foot-tall energy storage system (ESS) called the TENER Stack, which, according to CATL, offers ...

CATL debuts 9MWh TENER Stack, the worlds first ultra-large energy storage system bins split-design transport compliance, 5-year zero-degradation cells, 20% cost ...

Designed to meet rising global energy demands driven by AI data centers and industrial electrification, the TENER Stack leverages CATL's advanced high-energy-density ...

Today, the company unveiled a 20-foot-tall energy storage system (ESS) called the TENER Stack, which, according to CATL, offers breakthroughs in storage capacity, ...
