What are autarq solar roof tiles?

Roof tile and solar module in one. Autarq solar roof tiles are original roof tiles with integrated miniature solar modules. They are almost indistinguishable from regular roof tiles and blend seamlessly into the overall aesthetic of your roof. Gain freedom from electricity suppliers and soaring prices.

Are solar roof tiles reshaping Europe's urban landscape?

From solar roof tiles that preserve architectural aesthetics to transparent solar windows harvesting energy without compromising natural light, these innovations are reshaping Europe's urban landscape.

What are solar roof tiles & shingles?

Solar roof tiles and shingles represent a sophisticated evolution in building-integrated photovoltaics, offering homeowners an aesthetically pleasing alternative to traditional solar panels. These innovative products seamlessly blend into existing roof designs while generating clean energy.

Who makes sunstyle® roof tiles?

SunStyle International, a subsidiary of the Akuo Group, is a French co-designer and manufacturer of solar photovoltaic roof tiles. In addition to their roofing function, the SunStyle® tiles combine power generation with a contemporary style to create buildings that meet environmental challenges.

Thanks to the use of UV-stable pigments, this enables long-lasting, colour-fast modules to be manufactured. The internal pigment layer also ensures that the self-cleaning function of the ...

Architects and developers now have access to diverse solar integration options, from solar tiles that mimic traditional roofing to ...

Autarq solar roof tiles are original roof tiles with integrated miniature solar modules. They are almost indistinguishable from regular roof tiles and blend seamlessly into the overall aesthetic ...

These are the innovative solar roof tiles developed by the Fraunhofer Institute for Solar Energy Systems ISE under the SPHINX project, now on display at Intersolar in Munich.

That's exactly why solar roof tiles Europe are causing a quiet revolution across the continent. From Swiss chalets to Danish townhouses, architects are solving the "ugly solar panel" ...

Architects and developers now have access to diverse solar integration options, from solar tiles that mimic traditional roofing to transparent solar glazing for windows. These ...

Discover our range of innovative solutions for modern roofs that combine aesthetics with functionality. We created eTile Classic as the first BIPV product from a real event.

Solar panels installed over traditional roofs can suffer from weather-related problems and compromise the roof construction. The EU-funded TilePlus project designed new roof tiles with ...

In addition to their roofing function, the SunStyle(R) tiles combine power generation with a contemporary style to create buildings that meet environmental challenges. SunStyle(R) tiles ...

Solar roof tiles are making this vision a reality across Europe. Unlike those bulky panels bolted on top of your existing roof, solar roof tiles become your roof.

Solar roof tiles are making this vision a reality across Europe. Unlike those bulky panels bolted on top of your existing roof, solar roof ...

European ceramic solar roof tiles, like those manufactured by Tejas Borja, are a groundbreaking fusion of traditional aesthetics and modern photovoltaic technology. These ...
