Where is PJSC Kyivstar located?

PJSC Kyivstar was registered in Ukraine in 1994 and commenced mobile-telephony operations in 1997. The company's head office is located in Kyiv. Kyivstar is a part of the international telecom group VEON. Oleksandr Komarov has been the President of the company since December 2018.

What is 5G New Radio (NR)?

The 5G New Radio (NR) interface defines two main operating ranges: Frequency Range 1 (FR1) - below 7.125 GHz, also called sub-6 GHz. It covers low- and mid-band frequencies and supports channel bandwidths up to 100 MHz. Typical download speeds range from 5 to 900 Mbit/s depending on conditions.

Who makes 5G radio & core systems?

Major suppliers of 5G radio and core systems included Altiosstar, Cisco Systems, Datang Telecom/Fiberhome, Ericsson, Huawei, Nokia, Qualcomm, Samsung, and ZTE. Huawei was estimated to hold about 70 percent of global 5G base stations by 2023.

What is a 5G core?

The 5G core (5GC) is a service-oriented, software-defined system that separates control and user planes and supports flexible deployment. It replaces the 4G Evolved Packet Core with modular, software-based network functions.

After testing, 5G connectivity is planned to be launched in Ukraine. The first city where 5G will be fully operational is Lviv, announced Kostiantyn Vechir, Business ...
